# Sklar Blue™ Electrosurgical Instruments

**Sklar Blue™** Electrosurgical Instruments feature our exclusive **Sklar Blue™** insulated coating that prevents the transmission of RF current through the instrument and provides an effective, non-conductive, patient-safe surface. Manufactured from the highest quality stainless steel these instruments are fully autoclavable and can be conveniently cleaned ultrasonically.

**Sklar Blue™** Insulates from Transmission of Electrical Current  
All Sklar instruments can be custom ordered in **Sklar Blue™**
